

How to Transfer to the Junior League of Jackson:

To transfer to the Junior League of Jackson you must **notify your current Junior League**. This procedure varies by League so check your current League's website, your membership directory or with your corresponding secretary for guidance.

Your League will notify the Junior League of Jackson of your intent to transfer and you will be sent a welcome letter and a *new member profile* to complete. Please return the completed *new member profile* and any required payment (within 30 days) so that we can quickly complete your transfer and get you connected to our Transfer Chair and set you up with a Jackson Junior League Placement. Failure to respond promptly may result in your membership being dropped.

Please note that the deadline for transferring into our Provisional Class is April 1st of each year. Provisional members who transfer into JLJ after April 1st of each year will be held over until the next year so that they can join the next Provisional Class.

If you are due a refund from your previous League, please work with them to arrange a refund. Each League is independent and there is no way to transfer funds between Leagues.
